Pledge Foundation is a non-governmental organization formed amidst the COVID-19 pandemic to help the most affected. With our continuous community service; we found that it was the children who were the worst impacted during the pandemic followed by women and men with an adverse unsafe environment. We want to Change that! With our well-planned and comprehensive programmes and activities in health, education, hunger, water, and rural development, we impact the lives of the underprivileged. We believe in order to change the lives of children their immediate circle needs to be changed starting from the family itself. Our programmers are designed to make sure that Children are future-ready.

We went beach cleaning! On the 3rd day of Daan Utsav Joy of Giving Week, our volunteers dedicated their day to making a beach beautiful again.

We arrived at Dana Pani Beach, Malad, at around 8:30 am. After sudden Mumbai heavy rains which delayed us by an hour. But That didn't stop us from our mission.

After getting suited up with our gloves, masks, and trash containers, we set off in groups to roam around the beach. We aimed to cover every spot of sand we could see. It was a true team effort: some of us wandered along the water while others trekked all the way up to the rocks.

A lot of the waste we found was trapped in amongst the plants further away from the water. Plastic cups, old food wrappers, and polystyrene littered the landscape, a lot of it standing out against nature for its artificially bright colors.
